

How to install EasyFs software

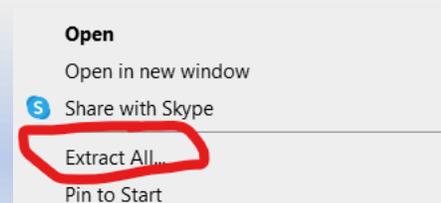

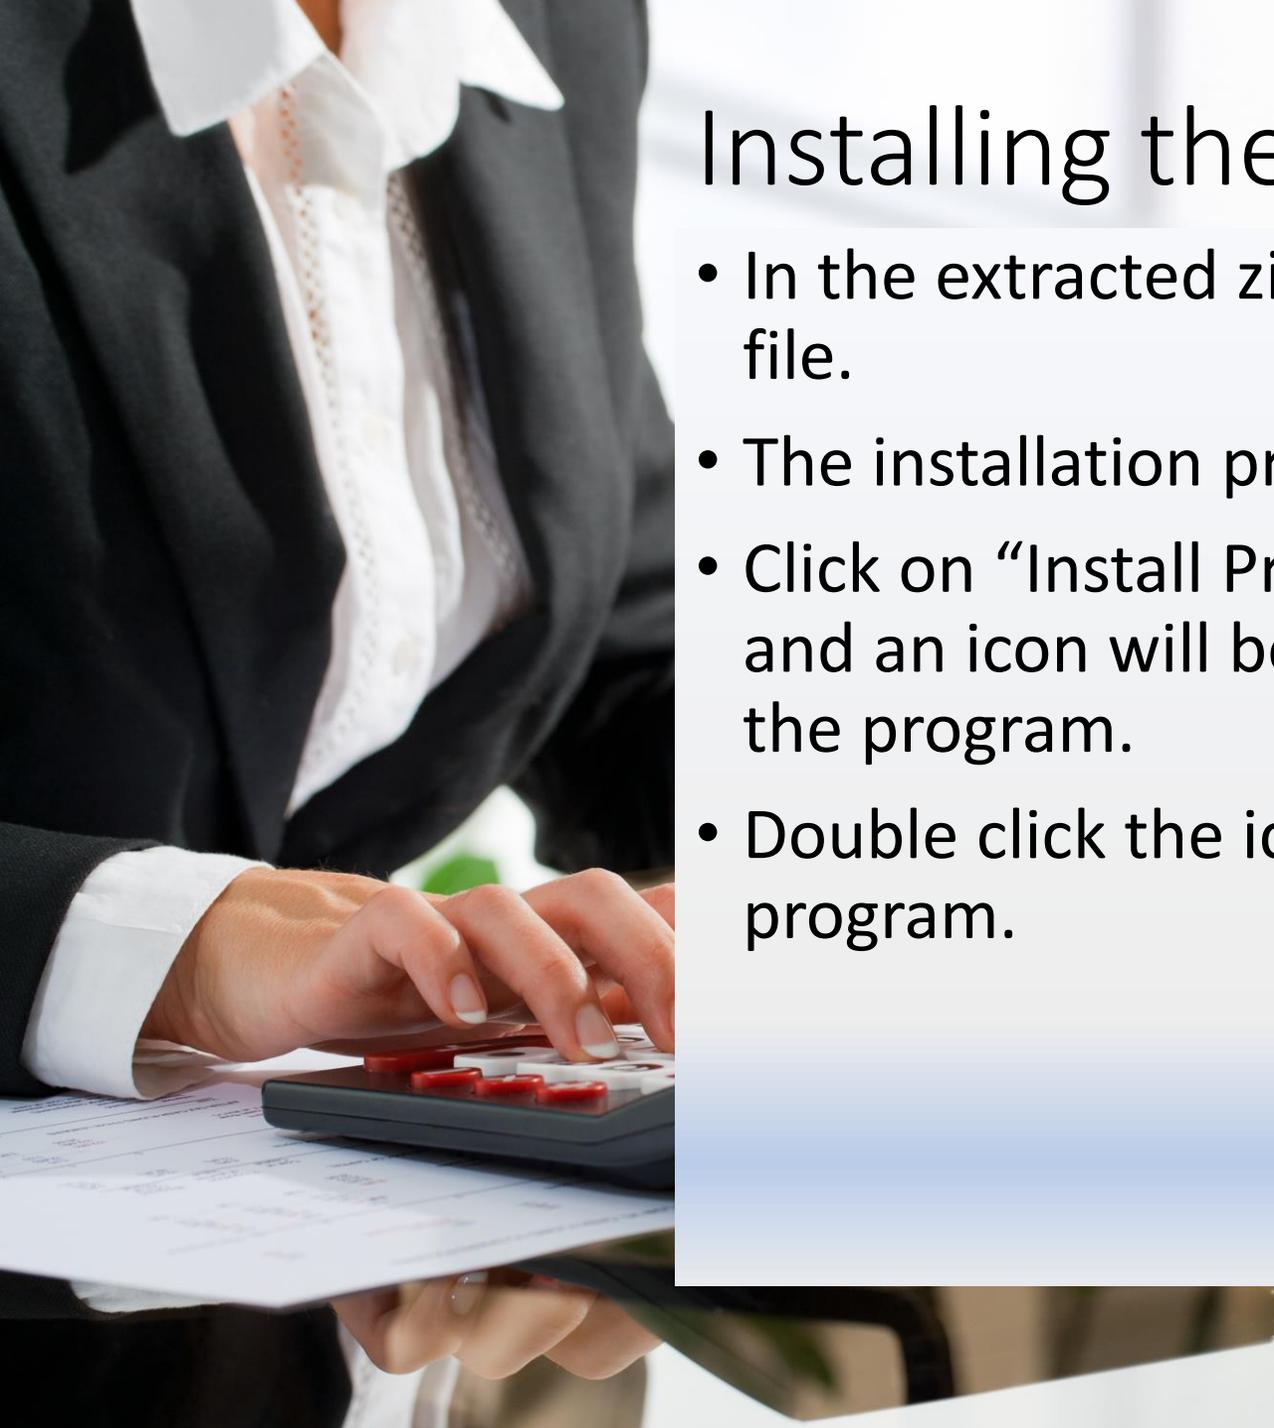

Installing the software

- Download the relevant program files
- Remove the mark of the web from the zip file to enable the software to install:
 - Right click the zip file and select properties.
 - On the general tab towards the bottom, select unblock:

- Then click apply and Ok.
- Then right click the zip file and “Extract All” files.

A person in a dark suit and white shirt is shown from the chest down. They are holding a black calculator with red buttons over a document with tables of numbers. In their other hand, they are holding a tablet computer. The background is a bright, out-of-focus office setting.

Installing the software

- In the extracted zip file folder, double click the install file.
- The installation program will open.
- Click on “Install Program” and the program will install and an icon will be placed on the Desktop to open the program.
- Double click the icon on the Desktop to open the program.

A person in a dark business suit and white shirt is seated at a desk, working. Their hands are on a laptop keyboard. In the foreground, a black calculator with red buttons sits on a document. A black smartphone is also on the desk. A glass of water is visible to the right. The background is a bright, out-of-focus office space with a window and a plant.

The End
