

How to install and license EasyFs software

A person in a dark business suit and white shirt is shown from the chest down. They are holding a black calculator with red buttons over a document with tables of numbers. In the background, a tablet is visible. The scene is brightly lit, suggesting an office environment.

Steps to download and install.

- Download the relevant software form:
<https://www.easyfsfinancials.com>
- Remove the mark of the web
- Save license request and request license
- License the software

Installing the software

- Download the relevant program files
- Remove the mark of the web from the zip file to enable the software to install:
 - Right click the zip file and select properties.
 - On the general tab towards the bottom, select unblock:

- Then click apply and Ok.
- Then right click the zip file and “Extract All”s.

A person in a dark business suit and white shirt is shown from the chest down. They are holding a black calculator with red buttons over a document with tables and numbers. In the background, a tablet is visible. The scene is brightly lit, suggesting an office environment.

Installing the software

- In the extracted zip file folder, double click the install file.
- The installation program will open.
- Click on “Install Program” and the program will install and an icon will be placed on the Desktop to open the program.
- Double click the icon on the Desktop to open the program.

Licencing the software

- If the “Setup License” screen does not open automatically, click on “Setup License” Button.

Licencing the software

- Click on “ Save License Key Request” and email the pdf request to obtain a license for the software.
